

## CONCEPTUAL MANAGEMENT PLAN #22

### LEMON STREAM

**LOCATION:** Starks, on a major tributary of the Sandy River.

**SIZE:** 3.9 acres.

**LAND COVER:** Mixed woods, with hardwoods dominating along the stream.

**FEATURES/PUBLIC VALUES:**

1. Lemon Stream shoreline.
2. Zoning for this property for 250' back from the normal high water mark under Starks' Shoreland Zoning is Resource Protection.
3. Lemon Stream has brook trout population.
4. Parcel is forested.

**FOCUS SPECIES:**

1. None at present.

**CONCERNS:**

1. Compliance with applicable Shoreland Zoning standards in conduct of any activities.
2. Unknown if unusual ecological community, rare plants and animals, or species of special concern are present.

**RECOMMENDATIONS:**

1. Evaluate for and determine Focus Species, if appropriate.
2. Determine if rare plants and animals, species of special concern, or unusual ecological communities are present and develop further recommendations as necessary based on findings.
